Female Firebrands is an honest, modern, and solutions-oriented book for dealing with situations women know all too well: sexual harassment, not being taken seriously, and being talked over, passed over, underpaid, and underappreciated.

Who is this guide for?
This guide was created for executives, people managers, HR/DEI, and other business leaders who want to increase belonging and create better experiences for women and all employees in their organizations.

What's included?
You will find a list of providers who offer services, tools, and checklists focused on increasing advocacy, removing bias, improving processes for interviewing and hiring, fixing gender pay equity, creating great places for working parents, and more.

How do I use it?
All service providers, tools, and other resources are listed along with areas they address. If you’re looking for a solution with a particular focus like ‘DEI & Unconscious Bias Training’ you can see all the resources in that column.

You can also click directly on any tool/vendor in the chart for more details including contact information. All contact information is listed in alphabetical order on pages 5-9.

Vendors marked with the Firebrand spark are featured in the book.
